**La nostra storia nasce nel 1953 a Pogno,
dove ancora oggi abbiamo la nostra sede
e i nostri stabilimenti produttivi.**

Our history started in 1953 in Pogno,
where we still have our headquarters
and production plants.

E' una storia fatta di valori e di concretezza, di passione per il lavoro e per il nostro territorio. Il nostro è un successo tutto italiano, i nostri rubinetti vengono progettati e realizzati coniugando la creatività e la cura artigianale tipici del made in Italy con le potenzialità di un'Azienda industriale. E il filo conduttore è da sempre la funzionalità del prodotto: attenzione a forme pulite ed essenziali, utilizzo di materie prime rispettose delle normative internazionali e applicazione delle migliori innovazioni tecnologiche per ottenere un prodotto in grado di integrarsi perfettamente con la sua materia prima, l'acqua.

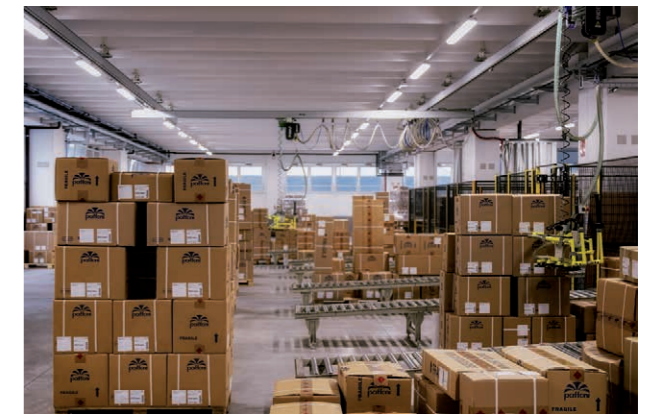

It is a story based on values and concreteness, passion for our work and for our territory. Our success is all Italian, our taps are designed and made by combining the creativity and the handmade care typical of Made in Italy with the potential of an industrial company. The common thread has always been the functionality of the product: attention to simple and essential shapes, the use of raw materials which are respectful of the international regulations, the application of the best technological innovations to obtain a product able to integrate perfectly with its main purpose: the water.

Elle-Effe

Eleganza e semplicità

Sono questi i due principi ispiratori che hanno portato alla nascita delle linee di rubinetteria ELLE e EFFE. Linea squadrata e profilo pulito, per amplificare un senso di eleganza e modernità che rendono queste serie adattabili ad ogni tipo di ambiente. La cura del dettaglio si accompagna alla cura della funzionalità: un design di alta gamma si unisce ad una tecnica e componentistica di elevata qualità. Leva aperta per la serie EFFE, leva chiusa per la serie ELLE. Due varianti di design per una serie unica nelle sue linee essenziali. E per entrambe le versioni il lavabo è disponibile in tre altezze differenti (Standard, Medio e Prolungato).

Elegance and simplicity

These are the two key factors that have led to the realization of our EFFE and ELLE mixers lines. Square line and clean profile to amplify a sense of elegance and modernity that makes these series suitable for any environment. The attention to detail is accompanied by the care of functionality: a high-end design is combined with technique and components of high quality. Open handle for EFFE and closed handle for ELLE. Two design variants for a unique series of essential lines. For both versions, washbasin mixer is available in three different heights (Standard, Middle and Extended).

Rock

Grinta e gentilezza.

Il Rock fece irruzione nel mondo della musica, portando qualcosa di mai sentito prima, di accattivante, raccogliendo elementi classici e tradizionali ma producendo un feel nuovo e vivo. Allo stesso modo la serie Rock nasce da un'esperienza di forma classica e discreta, ma elabora le sue linee per produrre qualcosa di geniale: le innovative geometrie impreziosiscono il contesto come un assolo arricchisce una melodia.

Questa serie si presenta con una grinta decisa, con energia e carattere, quasi aggressiva; eppure mitigato nel carattere dalle sue linee tondeggianti, che fondono in maniera armoniosa i volumi tondi e le linee rette.

Grit and kindness.

The ROCK broke into the world of music, bringing something never heard before, captivating, collecting classic and traditional elements but creating them new and alive. Similarly the ROCK series is classic and discreet form of experience but draws its lines to produce something brilliant: innovative geometries embellish the context as a musical solo enriches a melody.

This collection presents itself as a determined grit, with energy and character, almost aggressive, but lightened by its rounded lines, mixing harmoniously round volumes and straight lines.

Light

Raffinata.

Piccolo fiore all'occhiello per eleganza e raffinatezza, la serie LIGHT si distingue per l'armonia della sua forma rotonda. Di particolare rilievo i modelli a pavimento: miscelatore lavabo e il miscelatore vasca con doccetta e deviatore.

Refined.

Small flagship for elegance and refinement, LIGHT series shines for the harmony of proportions and the simplicity of its round shape. Of particular importance, LIGHT line is completed by the floor mounting models: free standing basin mixer and free standing bath mixer with hand shower and diverter.

Innovazione.

Prima gamma di rubinetteria prodotta con lavorazione interamente da barra, la serie BIRILLO ha rappresentato nei primi anni 2000 un'innovazione tecnica ed estetica di altissimo livello. Ancora oggi rappresenta un mix di grande successo tra design e praticità di utilizzo, le sue forme pulite e lineari lo rendono il perfetto complemento di arredo di qualsiasi ambiente. Tutti gli articoli sono disponibili nella classica finitura cromata.

Innovation.

BIRILLO series is the first range of taps produced entirely by brass-bar machining; in the early 2000s it represented a technological and aesthetics innovation of the highest level. Still today, it is a mix of great success between design and usefulness; its clean and linear shapes make it the perfect complement to any room decor. All items are available in the classic chrome finish.

Ringo-West

Versatilità.

La fusione tra forma quadra e tonda crea uno stile unico per le serie RINGO e WEST, rendendole perfette per ogni stile di design e di arredamento. Oltre che nelle sue forme, la versatilità di queste serie si evidenzia anche nelle sue numerose varianti: leva aperta per la serie RINGO, leva chiusa per la serie WEST.

E per entrambe le versioni il lavabo è disponibile in tre altezze differenti (Standard, Medio e Prolungato), e sia con cartuccia standard che con cartuccia ENERGY SAVING, grazie alla quale si può ottenere un sensibile risparmio energetico in quanto l'apertura della leva consente erogazione di acqua fredda, mentre per ottenere l'acqua calda è necessario ruotare la leva verso sinistra.

Versatility.

The fusion between square and round shape creates a unique style for RINGO and WEST series, making them perfect for any design style and furnishings. In addition to their forms, the versatility of these series is also evident in its many variations: Open handle for RINGO series, closed handle for WEST series. For both versions, washbasin mixer is available in three different heights (Standard, Middle and Extended), and even with standard cartridge then ENERGY SAVING cartridge, thanks to which you can achieve significant energy savings since the opening of the handle in frontal position allows supply of cold water, while for obtaining hot water it is requested to turn the handle to the left.

Stick

Innovazione.

Con la sua forma semplice e la sua linea pulita, la serie STICK rappresenta il primo esempio di evoluzione dal miscelatore standard al rubinetto moderno e minimalista nel rispetto della praticità di utilizzo e del contenimento dei costi, sia di produzione che di consumo.

Il lavabo è infatti disponibile nella versione con cartuccia ENERGY WATER SAVING, grazie alla quale è possibile ottenere un duplice risparmio energetico: l'apertura della leva al primo scatto consente erogazione di sola acqua fredda e in ridotta quantità, mentre per ottenere l'acqua calda è necessario ruotare la leva verso sinistra e per avere più portata è necessario alzare la leva oltre l'ECO-STOP.

Innovation.

With its simple shape and its clean line, STICK series represents the first example of evolution from the standard to the modern and minimalist mixer, in compliance with the practicality of use and cost containment, both in production and in utilization.

The basin mixer is in fact available with ENERGY WATER SAVING cartridge, thanks to which you can get a dual energy saving: the opening of the handle on frontal position to the first detent allows supply of only cold water in small quantities. To get hot water you need to rotate the lever to the left and to have a higher flow the handle has to be opened beyond the ECO-STOP.

Termostatici

I nostri rubinetti termostatici per il bagno permettono di mantenere l'acqua ad una temperatura costante per tutta la durata di utilizzo, anche nel caso di una variazione di pressione sulle mandate dell'impianto nel caso di apertura contemporanea di altri rubinetti. L'acqua calda e l'acqua fredda, infatti, vengono miscelate dalla cartuccia termostatica ad una temperatura preimpostata dall'utente, regolando costantemente la miscelazione in base alle variazioni dell'impianto, evitando così aumenti o crolli improvvisi della temperatura, che viene mantenuta costante anche nelle successive aperture.

Our thermostatic mixers for the bathroom allow to maintain the water at a constant temperature during the use, even in case of pressure changes in the equipment due to simultaneous opening of other taps. The hot and cold water, are in fact mixed by the thermostatic cartridge at a temperature preset by the user, constantly adjusting the water mixing according to changes in the equipment, avoiding increases or sharp reductions of the temperature, which is kept constant also in the succeeding openings.

Kitchen

Chef

Leggerezza in cucina.

In cucina la passione per le cose buone diventa passione per le cose belle: la serie CHEF nasce dalla volontà di offrire qualcosa di nuovo senza perdere di vista l'essenza. Niente fronzoli, nessun eccesso: linearità e uniformità tra canna e corpo per interpretare la leggerezza come icona dell'alta cucina contemporanea. Il tradizionale sistema di aggancio del supporto doccia viene sostituito dall'innovativo aggancio con magnete per creare una linea di rubinetteria per cucina che esprime al massimo gli elementi propri del made in Italy: design, qualità dei materiali, funzionalità, affidabilità e durata nel tempo.

Lightness in the kitchen.

In the kitchen, the passion for good things becomes a passion for beautiful things: the CHEF line comes from the desire to offer something new without losing essence. No frills, no excess: linearity and uniformity between the spout and the mixer body to render the lightness as an icon of the contemporary haute cuisine. The traditional attachment system for the shower support is replaced by the innovative hook with magnet, creating a line of kitchen taps as expression of "Made in Italy" concepts: design, quality of materials, functionality, reliability and durability.

Elle-Effe

Eleganza e semplicità.

Sono questi i due principi ispiratori che hanno portato alla nascita delle linee di rubinetteria ELLE e EFFE. Linea squadrata e profilo pulito, per amplificare un senso di eleganza e modernità che rendono queste serie adattabili ad ogni tipo di ambiente. La cura del dettaglio si accompagna alla cura della funzionalità: un design di alta gamma si unisce ad una tecnica e componentistica di elevata qualità. Leva aperta per la serie EFFE, leva chiusa per la serie ELLE. Due varianti di design per una serie unica nelle sue linee essenziali.

Elegance and simplicity.

These are the two key factors that have led to the realization of our EFFE and ELLE mixers lines. Square line and clean profile to amplify a sense of elegance and modernity that makes these series suitable for any environment. The attention to detail is accompanied by the care of functionality: a high-end design is combined with technique and components of high quality. Open handle for EFFE and closed handle for ELLE. Two design variants for a unique series of essential lines.

Rock

Grinta e gentilezza.

Il Rock fece irruzione nel mondo della musica, portando qualcosa di mai sentito prima, di accattivante, raccogliendo elementi classici e tradizionali ma producendo un feel nuovo e vivo. Allo stesso modo la serie Rock nasce da un'esperienza di forma classica e discreta, ma elabora le sue linee per produrre qualcosa di geniale: le innovative geometrie impreziosiscono il contesto come un assolo arricchisce una melodia.

Questa serie si presenta con una grinta decisa, con energia e carattere, quasi aggressiva; eppure mitigato nel carattere dalle sue linee tondeggianti, che fondono in maniera armoniosa i volumi tondi e le linee rette.

Grit and kindness.

The ROCK broke into the world of music, bringing something never heard before, captivating, collecting classic and traditional elements but creating them new and alive. Similarly the ROCK series is classic and discreet form of experience but draws its lines to produce something brilliant: innovative geometries embellish the context as a musical solo enriches a melody.

This collection presents itself as a determined grit, with energy and character, almost aggressive, but lightened by its rounded lines, mixing harmoniously round volumes and straight lines.
